

# Know your ASIC

If you are in an aviation secure area or security zone you must have the correct ASIC.

From 1 November 2016, all people directly involved in the production and issuing of ASICs, and certain nominated roles of Known Consignors, Regulated Air Cargo Agents and Accredited Air Cargo Agents, must be background checked.

If they do not have a red or grey ASIC, they must obtain a white ASIC.

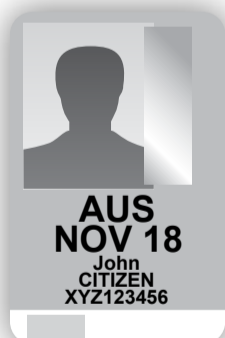

The white ASIC cannot be used to access secure areas and zones.

Red ASIC

- Secure areas
- Airside security zones
- Landside security zones

Grey ASIC

- Secure areas
- Airside security zones
- Landside security zones

White ASIC

- Secure areas
- Airside security zones
- Landside security zones
